

***To keep the good times rolling, Curtis, Liam, Declan and Callum literally went the extra mile to spread the word, taking to the streets to ensure as few people in need missed the event's life-reaffirming charm and abundant aid.***

*The experience our pupils had tending to our guests was powerful, each deepening their understanding of homelessness and its hardships through the conversations they had.*

*Below you can find a few quotes from our students that really stood out:*

*"Carla, I feel like I'm going to cry, it's not fair for some of these people" ~ Declan*

*"Can we do this more often?" ~ Curtis*

*"I can't imagine how he must feel" ~ Callum*

*"He has lost everything, he had a job and a house and a family" ~ Summer*

*Our pupils could not have done more to make our guests feel welcome and respected. Understandably weary after a long and laborious weekend (seriously, they were fast asleep for the car ride home), such exhaustion was eclipsed by the pride they carried having gotten to know the people they'd helped as well as the struggles they face on a day to day basis.*

*Thank you to the people who made such a life-affirming day a reality. Special thanks to Miss Edwards for your dedication to healing the hearts and minds of our young people through kindness and understanding; inspiring them to do the same for others!*

***Thrive on everybody!***

***P.S. thank you Mr Christi over at 'C & G Autos' for providing free parking for the staff who attended bright and early (what a life saver).***
